Hearing Officer:	Mr. Malcolm Butler	APC
Division of Air Pollution Control Representatives:	Ms. Linda Bilbrey	APC (Recording Secretary)
Other Divisions: Resources Management Bureau	James Johnston	APC
Public	None	

Comment Summary

This public hearing has been called to consider the following amendment pursuant to Tennessee Code Annotated, Section 68-201-105:

1. The amendment to paragraph (1) of Rule 1200-03-05-.02 clarifies that irrespective of any permit conditions or due allowances for visible emissions, no emission will be allowed that can be proved to cause or contribute to violations of National Ambient Air Quality Standards.
2. These proposed amendments to Rule 1200-03-20-.06 clarify the reporting requirements following a Notice of Violation due to emissions from air contaminant sources during Start-up, Shutdown and Malfunction (SSM). The changes clarify that reported facts of an SSM event shall be used for the determination of potential enforcement actions. Additionally, the rule changes clearly define that no emission shall be allowed that causes or contributes to any violation of the National Ambient Air Quality Standards (NAAQS).

No public comments were received at the public hearing.
